Overview

2011 Cadillac CTS V – The V version is supercharged 6.2 ltr V8. It produces 556 HP couple to an 8 speed automatic transmission through rear wheel drive

Fitted with Brembo performance brakes, 19 inch alloy wheels, Performance tyres and Xenon headlights as well as an Adaptive suspension with adjustable dampers, Keyless ignition/entry (including remote start) and Rear parking assistance.

Inside the standard features list continues with Leather upholstery and Power-adjustable heated front seats with driver-seat memory

Plus a Suede-trimmed power tilt-and-telescoping steering wheel and Dual-zone automatic climate control

A Bose surround-sound audio system (with a CD/MP3 player, USB/auxiliary audio jacks and digital music storage)

The list goes on – after all it is a Cadillac.
